EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Brunton on 6-14-04.

The application has been amended as follows:

In the claims:

In claim 15, lines 16-17, the language "said first fabric member overlaying" has been changed to --said bladder overlaying--.

In claim 15, line 17, "bladder" has been changed to --first fabric member--.

2. The following is an examiner's statement of reasons for allowance: Regarding the article claims, none of the prior art of record taught the relationship between the second fabric member having the elastic cuff and the adhesive coated bladder wherein the inner surface of the adhesive coated bladder which engaged the portion of the wearer was in sealable contact with the wearer's appendage. Note that while it might have been obvious to include a cuff on the edge of the garment of Williams (PCT '569 or US '226), however such would not have included disposing the bladder in such a fashion that the same contacted the wearer in the manner claimed to provide a seal to prevent water for passing into the article of clothing. Regarding the method claims, none of the prior art of record taught the relationship between the bladder and the

mandrel whereby a glazed, smooth surface was formed on the upper portion of the bladder which was for engagement with the wearer's extremity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
